The Patient's **Rights**

http://dikaiomamou.anticancerath.gr/

1. The patient has the right to know his/her legal rights. In case of difficulty in understanding he/she has the right to ask for further information and explication. Therefore he/she should call the hospital Social Service.

2. The patient has the right to decent and individual healthcare, to a safe and clean environment, without distinction of race, colour, religion, sex, nationality, financial status, moral or political beliefs.

3. The patient has the right to be informed about the diagnosis of his/her disease, the recommended treatments and their consequences and to receive all the necessary information, both him/herself and his/her family, before consenting to any recommended method of treatment, after having assessed the relation between risk and benefit.

4. The patient has the right to refuse the suggested methods of treatment. He/She has the right to be informed of the findings of any diagnosis or examination as well as to consult a second doctor befor taking a decision.

5. The patient has the right of the "confidential medical record". That is the right that his/her case history and medical record must remai confidential. The doctors and nursing staff should be bound to secrec

6. The patient has the right to know the names, titles and specialisations of doctors and nurses who are responsible for his/he therapy and hospitalisation. He/She has the right to refuse the servic of specific members of the medical team after particular reasoning.

7. The patient has the right to access to all hospital services, e.g. physiotherapists, dieticians, psychologists etc, and to be informed by the medical and specialised nursing staff in order to comprehend his her health requirements, the possible continuation of his/her therapy as well as his/her transfer to another specialised hospital/clinic.

8. The patient has the right to be informed by the hospital officials about his/her legal rights concerning social rehabilitation, medicare and welfare, e.g. special rehabilitation treatments, special centres for full recovery, artificial limbs, special benefits, free medication etc.

9. The patient has the right, along with the discharge note, to ask for a copy of his/her medical file and a medical informative statement from the hospital department. He/She has the right to check nursing expenses, to ask for clarification and finally, always has the right to report without any fear failures or shortcomings encountered during his/her nursing.

«KEFI» - Athens supports

// The right for true and reliable information
The oncologic patients have the right to be fully informed and aware of the truth about the diagnosis and the recommended treatments. Truth activates the patient's strength to fight the battle!

// The right to claim a quality of life during the treatment period and cope with no fear with the clinical examinations that will follow.

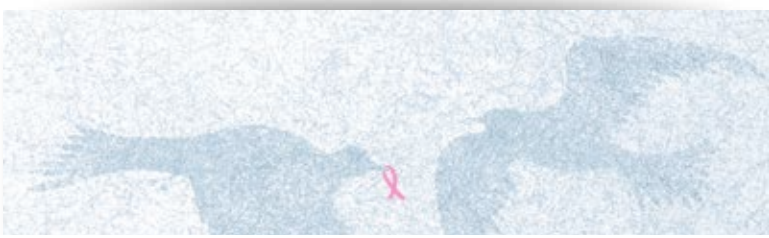

// The right for: QUALITY IN LIFE, SELF-RESPE, DIGNITY, SOLIDARITY

SEARCH, LEARN, CLAIM!
YOU HAVE THE RIGHT!

MEMBER OF: HELLENIC CANCER FEDERATION-ΕΛΛ.Ο.Κ.

KEFI MAIN OBJECTIVES

It is a fact that the number of oncological patients is increasing quickly in the broader Athens area, without the releavant increase of infrastructure and health services.
It is also a fact that oncological patients give their fight for life alone, often without any prompt information and sufficient support.

The Association of Cancer Patients «KEFI of Athens» established on 2004 with the following objectives:

- **to face the above mentioned social deficit**
- **to develop a spirit of solidarity and mutual support in favour of the psychological and social rehabilitation of the oncological patients**
- **to provide to the oncological patients the posibility to express themselves freely and publicly.**

KEFI ACTIVITIES

KEFI Association
